

[illegible]

1 FIRST SOLVE

New here? Do the walkthrough from at cubepath-six-vercel/app/learn. This card is the memory jog.

NOTATION

U = counter-clockwise, 2 = half turn. Lowercase r f = that face plus the layer behind it, turning together.

y = slice the whole cube left, white staying down. A whole-cube turn solves nothing.

WORDS

Your algorithm is a fixed sequence of turns - trigger a short algorithm when your hands form one unit

1 WHITE CROSS

White center DOWN. Bring the four white edges to it. Each edge's side color must match the center it touches. No algorithm - work it out.

Can't see it? Build the four white edges on the YELLOW face first, each above its matching center, then turn each one down 180 degrees.

2 WHITE CORNERS

white sticker RIGHT
R'UR'

white sticker FRONT
L'L'U

white sticker UP turn the first one once to knock it out, then look again
R'UR'

3 MIDDLE EDGES

Top edge with NO yellow: turn U until its front color matches the center under it. The arrow shows which slot it goes to.

goes RIGHT
U' R'UR'U' y L'L'UL'U

goes LEFT
U' L'L'UL'U y' R'UR'U'

Edge stuck in the wrong slot? Run either one to kick it out, then place it.

■ **R'UR'** sexy move ■ **R'UR'U** sane ■ **R'FR'** sledgehammer gap = edge grip
