Diagram illustrating the sequence of operations for a 2D FFT:

- 2D input array** (256x256) → **1D array** (256x256) → **2D array** (256x256) → **2D output array** (256x256)
- Operations shown: **fft2** (2D FFT), **fft** (1D FFT), **ifft2** (2D inverse FFT), **ifft** (1D inverse FFT)

Legend for operations:

- fft2**: 2D FFT
- fft**: 1D FFT
- ifft2**: 2D inverse FFT
- ifft**: 1D inverse FFT

The diagram is divided into four quadrants, each showing a different stage of the process. The top-left quadrant shows the input array, the top-right shows the 1D array, the bottom-left shows the 2D array, and the bottom-right shows the output array. The diagram is labeled with '256' and '256' for the dimensions of the arrays.
