

The diagram illustrates a 3D Rubik's cube with six faces, each representing a different stage in solving the puzzle. Each face is labeled with a move sequence and includes a small 3D cube icon showing the state of the cube after the move.

- Yellow Face (Top):** 6 PLT THE YELLOW CORNERS HOME. The small cube shows the yellow face is solved.
- Red Face (Front):** 7 TWIST THE YELLOW CORNERS. The small cube shows the yellow face is solved, and the red face is being twisted.
- Blue Face (Back):** 5 MATCH THE YELLOW EDGES. The small cube shows the yellow face is solved, and the blue face is being matched.
- Green Face (Right):** 4 YELLOW CROSS. The small cube shows the yellow face is solved, and the green face is being crossed.
- Orange Face (Left):** 2 MATCHED, SLIDE BY SIDE THEM BACK AND LEFT. The small cube shows the yellow face is solved, and the orange face is being matched.
- White Face (Bottom):** 2 MATCHED, OPPOSITE RUN IT ONCE FROM ANY HOLD. The small cube shows the yellow face is solved, and the white face is being matched.

TEST SOLVE

New here? Do the walkthrough once at cubepath-six.vercel.app/learn. This card is the memory jog.

NOTATION
R U **F** **L** **D** **B** = turn that face clockwise, looking at it from outside the cube
= counter-clockwise. **2** = half turn. Lowercase **r** = that face plus the layer behind it, turning together.
y = spin the whole cube left, white staying down. A whole-cube turn solves nothing.

WORDS
algorithm = a fixed sequence of turns - trigger = a short algorithm you always run the same unit

1 WHITE CROSS

White center **DOWN**. Bring the four white edges to it. Each edge's side color must match the center it touches. No algorithm – work it out. Can't see it? Build the four white edges on the **YELLOW** face – first, each above its matching center, then turn each one down 180 degrees.

2 WHITE CORNERS

Find a white corner on top, turn U until it sits above the empty slot it belongs in, then match a picture below and repeat until it drops in.

white sticker RIGHT
RUR'U'

white sticker FRONT
L'ULU

white sticker UP turn the first one once to knock it out, then look again
RUR'U'

3 MIDDLE EDGES

Top edge with NO yellow: turn U until its front color matches the center under it. The arrow shows which slot it goes to.

goes RIGHT
U R U' R' y L'ULU

goes LEFT
U R' L'ULU y' RUR'U'

Edge stuck in the wrong slot? Run either one to kick it out, then place it.

Edge - change rip

1 4 YELLOW CROSS (ignore the corners - yellow edges only)

2 5 MATCH THE YELLOW EDGES (align the center with the edge)

3 6 PUT THE YELLOW CORNERS HOME (insert the corners)

4 7 TWIST THE YELLOW CORNERS (twist the corners to match the center)

5 8 MATCH THE YELLOW EDGES (align the center with the edge)

6 9 TURN THE YELLOW CORNERS (twist the corners to match the center)

7 10 MATCH THE YELLOW EDGES (align the center with the edge)
