

Print at 100% / Actual size, SINGLE-sided. Crease along the grey line, fold so both printed faces are outward, glue, then cut. This bar must measure exactly 80 mm.

[illegible]

FIRST SOLVE

New here? Do the walk-through again at cubepath-six.vercel.app/ learn. This card is the memory jog.

NOTATION

R U F L B B = turn that face clockwise, looking at from outside the cube.
r = counter-clockwise, **2** = half turn. Lowercase **r f** = that face plus the layer behind it, turning together.
y = spin the whole cube left, while staying down. A whole-cube turn solves nothing.

WORDS

algorithm = a fixed sequence of turns - trigger = a short algorithm you hands run as one unit

1 WHITE CROSS

White center DOWN. Bring the four white edges to it. Each edge's side color must match the center it touches. No algorithm – work it out.
 Can't see R? Build the four white edges on the YELLOW face first, each above its matching center, then turn each one down 180 degrees.

2 WHITE CORNERS

Find a white corner on top turn U until it sits above the empty slot it belongs in, then match a picture below and repeat until it drops in.

white sticker RIGHT
RUR'U

white sticker FRONT
L'ULU

white sticker UP turn the first one once to knock it out, then knock again
RUR'U

3 MIDDLE EDGES

Top edge with NO yellow: turn U until its front color matches the center under it. The arrow shows which slot it goes to.

goes RIGHT
U R'UR' y L'ULU

goes LEFT
U' L'ULU y' RUR'U

Edge stuck in the wrong slot? Run either one to kick it out, then find a new one.

■ **R'FR'** sledgehammer
gap = change grip

The diagram illustrates a 10x10 grid with a 2D corner swap and a 3D corner swap. The 2D swap involves a 2x2 block of cells (R1C1, R1C2, R2C1, R2C2) and a 2x2 block of cells (R1C9, R1C10, R2C9, R2C10). The 3D swap involves a 2x2 block of cells (R1C1, R1C2, R2C1, R2C2) and a 2x2 block of cells (R1C9, R1C10, R2C9, R2C10). The diagram is labeled '2D CORNER SWAP' and '3D CORNER SWAP'.

ONE-LOOK PTL ADJACENT CORNER SWAP

exactly one face shows headlights

● T L headlights; pairs B-left F-left
RUR'U' R'F R2UR'U' RUR'F'

■ J L solid; pairs B-right F-left B-front
x R2FRF' RU2 rUr U2

■ Jb L solid; pairs B-right F-left B-back
RUR'F' RUR'U' R'F R2UR'

■ Aa L headlights; pairs B-right B-front
x L2D2 L'U'L D2 L'U'L'

■ Ab L headlights; pairs B-right B-back
