

OLL CROSS · yellow edges

Line bar left-to-right
F R U R' U' F'

Hook hook pointing front-right
f R U R' U' f'

OLL CORNERS · yellow face

Sune ① 1 yellow, rest clockwise
R U R' U' RU2R'

Anti-Sune ② 1 yellow, rest counter-clockwise
RU2R' U' R U R'

Pi ③ 0 yellow, headlights left
f R U R' U' f' F R U R' U' F'

No yellow edge at all? Run the first one, then read again.

OLL CORNERS · continued

Headlights ③ 2 yellow, headlights at the back
R2DR'U2 RD'R'U2R'

2x Headlights ② 0 yellow, headlights both sides
RUR'U RU'R' URU2R'

Chameleon ③ 2 yellow next to each other
rUR'U'r' FRF'

Bowtie ③ 2 yellow diagonal
F'rUR'U'r' FR

FALLBACK

The badge on each row is your fallback: that many Sunes, with a U turn between, also finishes the case. Machine-checked; three is the worst.

Top not all yellow and nothing matches? Run Sune and read again.

■ **RUR'U'** sexy move ■ **RUR'U** Sune ■ **R'FRF'** sledgehammer gap = change grip

PLL CORNERS · headlights = two matching corners on one face

T headlights on ONE face — hold that face LEFT
RUR'U' R'F R2U'R'U' RUR'F'

Y no headlights — the two swapping corners sit diagonally
FRU'R'U' RUR'F' RUR'U' R'FRF'

PLL EDGES · corners home, top still not solved

Ub the front edge travels LEFT
R2U RUR'U' R'U' R'UR'

Ua the front edge travels RIGHT
M2U MU2 M'UM2

H both pairs swap straight across
M2U'M2 U2 M2U'M2

Z each pair swaps with its neighbour
M'U' M2U'M2U' M'U2 M2U

START HERE · two new algorithms finish any last layer
 Yellow cross: **F R U R' U' F'** until the cross appears — at most 3.
 Yellow face: **Sune**, read again, repeat — at most 3 (see the badges).
 Corners: **T-Perm**. No headlights to hold left? Run it twice.
 Edges: **Ub**. No solved edge to put at the back? Run it twice.
 Each case on the front replaces one repeat with one run. Three a week; you can solve the whole time.

H VS Z

Both show headlights on all four faces. The edge between them decides: it belongs to the opposite face = **H**, to a neighbour = **Z**.

STUCK?

Corners home but nothing solves? Turn the top face once and read again — that is often the whole fix.

One case has beaten you five times? Park it, use its fallback above, come back next week.

A single piece looks twisted and no algorithm touches it? The cube was reassembled wrong. Pop it out and reseat it.

WORDS

OLL = make the whole top face yellow · **PLL** = slide the top pieces home · headlights = two matching corners on one face · **AUF** = the free top turn that lines a case up

THE NEW ORDER: yellow cross, yellow face, corners home, edges home. This never changes again. Card 1's order is retired, and so is Niklas: it moves corners but wrecks the yellow face, and here the yellow face is finished first.

UNLOCK CARD 3 — fifteen last layers in a row, each finished in exactly two algorithms, case named out loud first. A repeat does not count. □ **MASTER:** solves averaging under 1:00. My target: _____ · **NEXT:** 3/3 ONE-LOOK PLL
